SUMMARY

Compassionate and dedicated social worker with a background in Electronics and Communication Engineering. Skilled in hands-on technical tasks and committed to delivering quality work with integrity and efficiency.

WORK EXPERIENCE

Internship

jan 22,2025-feb 28,2025

I have completed my internship at Lucas TVS as a Motor Assembling Intern from January 22, 2025 to February 28, 2025. During this period, I gained hands-on experience in motor assembling processes, supported the team in quality inspection and component integration, and actively participated in daily operations, contributing to overall productivity.

PROJECTS

Solar Tracking System

I have completed a project where I designed a system to optimize solar energy collection through automated panel movement. The project involved developing a mechanism that tracks the sun's position and adjusts the angle of the solar panels accordingly to maximize energy absorption throughout the day.

Movie Ticket Bot

To design and implement a Robotic Process Automation (RPA) bot using UiPath that automates the process of booking movie tickets online, thereby reducing manual effort, minimizing errors, and save Time.
